

ST IVES SCHOOL ALUMNI

“

Crispian Jones

CEO Green Marine solutions

What was your favourite subject at school and why?

Music, as I was good at it and found it easy, played in a number of youth orchestras and bands.

What has been your greatest achievement in life and how did your experience at St Ives School help you to achieve other successes?

Being the first student to be sponsored by Nikon at college was cool and then being the first UK company to work on the first offshore wind farm in France was an achievement. Not sure, how school helped, being supported by a couple of teachers at school through some hard times showed the value of how a good support structure is vital for any achievement.

What one piece of advice would you give to current students?

Work as hard as you can and show enthusiasm and as long as you are keen and interested, it will all come right in the end. Get out there, otherwise lady luck will never find you, and life leans heavily towards how lucky you are.

What is your next big goal?

Sell my company and look for the next challenge.
